Unlock the potential of space | Sandown, Johannesburg

This building comprises 11 000 square meters of office space that sits atop a 4 level parking podium. This gives the building a commanding presence, which is reinforced by the distinctive V-shaped columns on the West Street ground floor edge.

The communal spaces are completed by new meeting room and workspace areas, along with a new Seattle Coffee Bar, which are for the exclusive use of the tenants.

The linking bridges between the floor plates allow for flexibility and ease of orientation for day-to-day circulation. With a coffee bar that is committed to providing a plentiful mix of nutritious food choices and glass surfaces that are designed to capture the dramatic Joburg sky, this is the perfect multifunctional

## Features
